

TESTICULAR ULTRASOUND

Purpose:

To obtain images of the testicles and surrounding structures.

How long will this procedure take?

This examination will take approximately 30 minutes.

Preparation:

None.

Procedure:

The technologist will apply gel to your scrotum area and create images. During the study, the technologist will take various measurements and take images of the testicles and surrounding structures.

After the examination:

The radiologist will study your films and dictate a report which will be sent to your physician within 24 hours.
